MARKET REVIEW

Kuwait's Weighted Index reported marginal losses of -5.7% due to the significant declines in Consumer Goods and Oil & Gas by -11.4% and -9.2% correspondingly. Moreover, KSE price index dipped 3.3 percent to close at 6,754.60 points, the lowest level since March 2013 after the OPEC's decision not to cut oil output to support prices, however it reflected negatively on the oil price which was dropped to less than 60 USD per barrel.
